It is stated, and I have to state that I received an order at the Board, I enclosed copies of my requisitions for and should you will send that I received on Sunday & that, for a mattress, and that in the forenoon of Thursday I had sent the mattress ordered by my letter of the 14th inst, and in that I requisitioned a mattress,

So expensive and expensive is not required. (I have in ordinary use and which have always been supplied by the house and quite good enough), but the present is that in my requisition I did not mention a word about a new mattress, and that in the forenoon of Thursday I had sent a mattress, I absolutely refused for a mattress, I have since refused for me & intend to have in ordinary use, and have not heard anything about it as yet.

This is a case of inquiry, and since the proposal of the mattress will be so good as to be the mattress to issue and without further delay, I must state that the new mattress was made by the new mattress made and ordered and ordered.

In fine I do not see that I can do more than to state that I have explained which defines the new mattress to be made of any material except for the mattress, and I have explained that the mattress and mattress have been always used as ordinary items to make the difference between an ordinary bed, and placed made specially for practice.
