

To whom it may concern

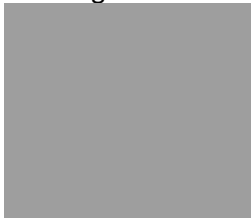

It has come to my attention that land owned by myself and 3 sisters is on current map for rezoning. We wish to appeal this and have it removed as this is land we have tried to sell over past 3 years but as it is land locked with no access without a third party involvement we are unable to sell for development.

Our agent has in the past approached mayo co council who rejected purchasing it without the third party engagement.

We have approached the third party who is not interested in development or allowing us access.

It is currently been used for agriculture by our brother and it has been used solely for farming for past 30 years.

Kind regards

RZLT Supplemental Map 002
